

MANAGEMENT SYSTEM CERTIFICATE

Certificate no.:
256702-2018-AE-CZS-UKAS

Initial certification date:
20 March 2009

Valid:
20 March 2021 – 20 March 2024

This is to certify that the management system of
Slovenská elektrizačná prenosová sústava, a.s.
Mlynské nivy 59/A, 824 84 Bratislava, Slovak Republic
and the sites as mentioned in the appendix accompanying this certificate

has been found to conform to the Environmental Management System standard:
ISO 14001:2015

This certificate is valid for the following scope:

**Providing for reliable operation of the transmission system for purposes of electricity transmission (400 kV, 220 kV and sections of 110 kV lines).
Providing for electricity transits. Supervisory control of the power system, providing for balanced between production and consumption of the system.
Electricity transmission under contracts and co-ordination of the system control within the internationally interconnected systems. The provision of system and ancillary services. Maintenance, renewal and development of the respective equipment of the transmission system and of the system as a whole.**

Place and date:
London, 23 July 2021

For the issuing office:
DNV - Business Assurance
4th Floor, Vivo Building, 30 Stamford Street, London,
SE1 9LQ, United Kingdom

Eerie Koek
Management Representative

Appendix to Certificate

Slovenská elektrizačná prenosová sústava, a.s.

Locations included in the certification are as follows:

Site Name	Site Address	Site Scope
Slovenská elektrizačná prenosová sústava, a.s.	Mlynské nivy 59/A, 824 84 Bratislava, Slovak Republic	Providing for reliable operation of the transmission system for purposes of electricity transmission (400 kV, 220 kV and sections of 110 kV lines). Providing for electricity transits. Supervisory control of the power system, providing for balanced between production and consumption of the system. Electricity transmission under contracts and co-ordination of the system control within the internationally interconnected systems. The provision of system and ancillary services. Maintenance, renewal and development of the respective equipment of the transmission system and of the system as a whole.
Slovenská elektrizačná prenosová sústava, a.s., Slovenský elektroenergetický dispečing	ul. Obchodná 2, 010 08 Žilina, Slovak Republic	Providing for reliable operation of the transmission system for purposes of electricity transmission (400 kV, 220 kV and sections of 110 kV lines). Providing for electricity transits. Supervisory control of the power system, providing for balanced between production and consumption of the system. Electricity transmission under contracts and co-ordination of the system control within the internationally interconnected systems. The provision of system and ancillary services. Maintenance, renewal and development of the respective equipment of the transmission system and of the system as a whole.
Slovenská elektrizačná prenosová sústava, a.s., Prevádzková správa Východ	Lemešany, 082 03 Lemešany, Slovak Republic	Providing for reliable operation of the transmission system for purposes of electricity transmission (400 kV, 220 kV and sections of 110 kV lines). Providing for electricity transits. Supervisory control of the power system, providing for balanced between production and consumption of the system. Electricity transmission under contracts and co-ordination of the system control within the internationally interconnected systems. The provision of system and ancillary services. Maintenance, renewal and development of the respective equipment of the transmission system and of the system as a whole.

Site Name	Site Address	Site Scope
Slovenská elektrizačná prenosová sústava, a.s., Prevádzková správa Západ	Križovany nad Dudváhom, 919 24 Križovany nad Dudváhom, Slovak Republic	Providing for reliable operation of the transmission system for purposes of electricity transmission (400 kV, 220 kV and sections of 110 kV lines). Providing for electricity transits. Supervisory control of the power system, providing for balanced between production and consumption of the system. Electricity transmission under contracts and co-ordination of the system control within the internationally interconnected systems. The provision of system and ancillary services. Maintenance, renewal and development of the respective equipment of the transmission system and of the system as a whole.
Slovenská elektrizačná prenosová sústava, a.s., Prevádzková správa Stred	Sučany, 038 52 Sučany, Slovak Republic	Providing for reliable operation of the transmission system for purposes of electricity transmission (400 kV, 220 kV and sections of 110 kV lines). Providing for electricity transits. Supervisory control of the power system, providing for balanced between production and consumption of the system. Electricity transmission under contracts and co-ordination of the system control within the internationally interconnected systems. The provision of system and ancillary services.
